

Insert The Batteries

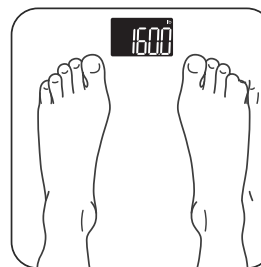

1

Insert 4 AA batteries into the battery compartment. Make sure to insert the plus and minus ends of the batteries correctly.

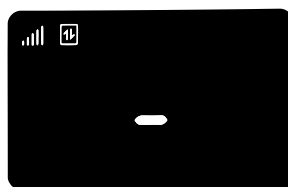

Take Your Weight

2

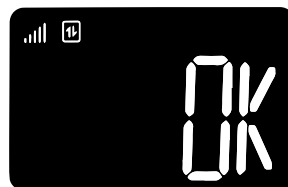

A) Step onto the scale with both feet.

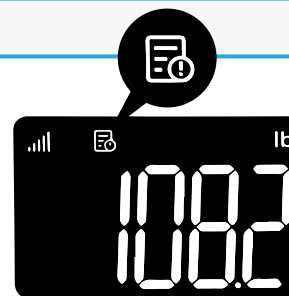

B) Step off after your weight is displayed and flashes twice.

successfully transmitted

unsuccessfully transmitted

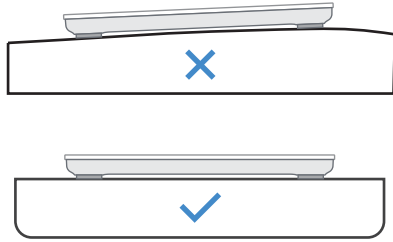

3

A) If there is network connectivity, the  symbol will appear.

B) The device will display "OK" within a few minutes if the measurement has been successfully transmitted.

C) If you see the  symbol, move your scale near a window and take another measurement. Your measurement will be stored and the device will try again after the next reading.

D) You may not take another reading until you see either "OK" or the  symbol.

- A. Place your scale on a flat and hard surface.**
Do NOT place the scale on carpet or soft surface.

- B. Step on the scale with clean, bare feet.**
Wear as little clothing as possible.

Do not move, talk, or bend your knees when weighing yourself.

8:05 am

Try to weigh yourself at the same time each day.
