Smart Band × 1
Charging cable × 1
Instructions × 1

Basic Parameters

Product Name	Smart Band
Product Model	4LB1
Input	5V = 0.2A
Battery	160mAh
Water Resistance Rating	IP68
Maximum Operating Temperature	45°C (113°F)

About the band

Power button
Heart rate sensor
Charging contacts

Power button

When the band is off, press and hold this button to power on the watch.
When the band is on, press and hold this button to power off the watch.
When the screen is off, press this button to turn on the screen.
Press this button to switch the display interface from any other page to watch face.

UI touch

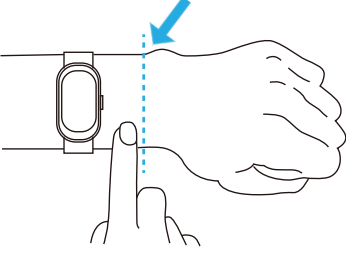

Slide left or right the interface to view the shortcut card or sidebar.
When the display interface is watch face, slide it up to view the notification panel.
When the display interface is watch face, slide it down to open the control center.

Notes:

1) For first use, please charge up the band to activate it.
2) If the band cannot be powered on, charge it for another hour and try again.

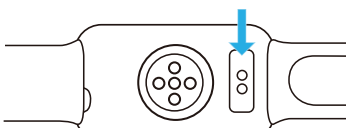

How to wear the Tenovi Watch

Place the band a finger width away from your wrist. Adjust the strap tightness so that it is not loose but still comfortable.

Charging your Tenovi Watch

Hold the end of the charging cable near the port on the back of your watch until it attaches magnetically. Make sure the pins on the charging cable align with the device's port.
Plug the charging cable into a USB-A port and the other end to the watch which will snap on magnetically.

Shortcut cards

Swipe left or right while in the watch face screen to quickly view data such as activity, heart rate, or sleep.

Swipe left or right

Repair & Maintenance

1. Avoid using liquid soap, hand sanitizer, body wash, washing liquid, and other cleansers to clean the watch. Residual liquid soap, detergent, hand sanitizer, or cleanser remaining on the band may induce irritation to your skin or might bring down the watch's waterproof performance.
2. Please don't wear the band in underwater sports like snorkeling, diving, or scuba diving; in aquatic sports like water skiing or surfing; and in swimming in such environment of high hydraulic pressure as river. In those environments, hydraulic pressure will vary suddenly, causing change to the watch's waterproof performance.
3. The watch's waterproof performance may be impaired because of acute change to air/water temperature. For this reason, please don't wear the band in high-temperature environments such as sauna room and hot water bath.

FCC & IC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.
L'appareil a été évalué pour répondre aux exigences générales en matière d'exposition aux RF. L'appareil peut être utilisé dans des conditions d'exposition portables sans restriction.

FCC & IC Statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:
This device must accept any interference, including interference that may cause undesired operation of the device.
L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
L'appareil ne doit pas produire de brouillage;
L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Due to the limitation of product size, the product certification information is printed on the outerpacage.
