

Powering the remote health revolution

Join the **most comprehensive cellular-connected RPM solution** in the market.

30+ cellular-connected devices and growing.

Cellular tech engineered by Tenovi in the USA.

No syncing. No apps. It just works

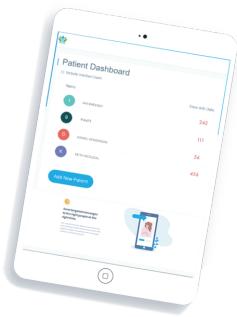

Automatically and securely get patient measurements within seconds.

1. Take a reading

2. Reading transmitted

3. Data analyzed

Platform Features

APIs for fulfillment, data, observation, ticket support.

Drop-ship directly to patients fulfilled in 1 day.

Industry leading cellular RPM and RTM device offering.

Tech support dashboard with 2 hour turnaround time.

Improve patient adherence.
No nagging required.

Red LED = Take your reading
Green LED = Measurement taken
Leads to 27% improvement in 99454 reimbursement.

Capabilities Comparison Chart

Industry-leading accuracy

Gateway ecosystem connects to leading devices in multiple categories.

Industry-leading connectivity

Includes multi-carrier Sim, direct carrier contract, antenna tuned to USA, and fall-back plan.

Sell devices directly to providers

Tenovi does not compete with our RPM clients by selling to providers.

Improved adherence with visual reminder system

Gateway LED turns red every morning reminding patients to take their readings.

Premium quality designed in-house in the USA

Electronics selection, firmware, in field diagnostic features, V/V, and QC built at Tenovi.

Leading # of cellular-connected devices

Tenovi engineers continuously vet and integrate new RPM and RTM devices every month.

Single partner for scaling RPM and RTM programs

Shipping, inventory, tech support, and data integration are covered for all devices.

Exceptional bicoastal technical support

9AM - 8PM EST in-house staff in Boston, MA and Irvine, CA with HIPAA-compliant system.
