Nonin Pulse Oximeter
Quick Start Guide

For further assistance on how to use your Tenovi device, please contact a Tenovi representative

Email: support@tenovi.com

1 Power your Gateway

Plug your gateway into a power outlet with the provided power cord and wait until the LED on the gateway turns red.
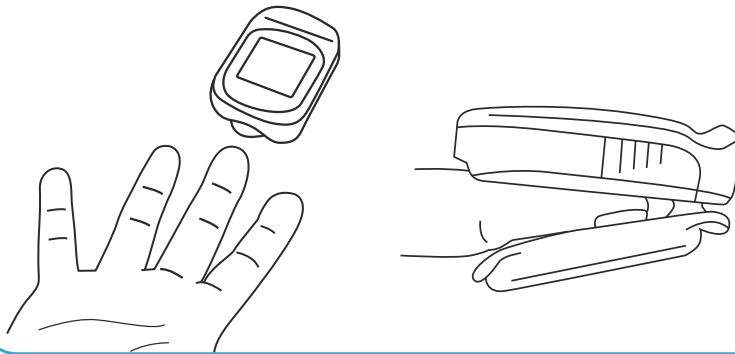

2 Insert batteries

Slide off back cover using your thumbs and insert two AAA batteries into the back of your pulse oximeter.

3 Insert your finger

Insert one finger completely into the measurement section of the pule oximeter with your fingernail pointing down, away from the screen.
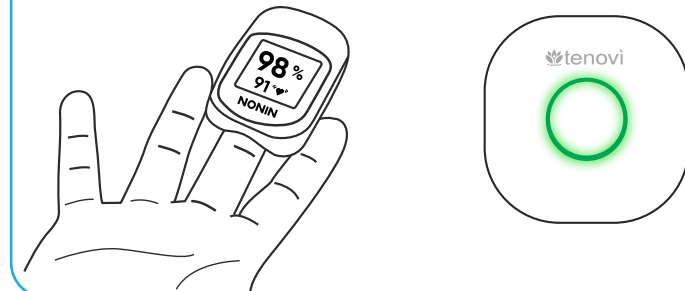

4 Take your measurement

Stand within 20 feet of the Tenovi Gateway. The pulse oximeter will automatically turn on and begin taking a measurement.

5 Wait for results

Keep your finger in the Oximeter for 20 seconds or until you hear a beep from the Tenovi Gateway.

6 Daily measurements

Take one measurement each day unless advised otherwise by your healthcare provider. The LED will turn red each morning and then turn green once a measurement has been successfully transmitted.
