

Remote Patient Monitoring

Launch or Scale Your Program with Tenovi

— HOW IT WORKS

Tenovi Makes It Simple

in three steps

01

Set Up Devices

Choose your connected health devices.

02

Data Flows Automatically

Connect via our Award-Winning Cellular Gateway. No Apps or Wi-Fi, and a single API to power your data.

03

Manage Care & Billing

Use our trusted network of software or care partners or bring your own.

— AUTOMATIC CONNECTIVITY

No syncing. No apps.

Securely transmit patient measurements within seconds.

— CONNECTED INFRASTRUCTURE

Increase revenue.

Improve patient care.

- Reduce implementation time.
- Support more patients per clinician.
- Integrate with existing workflows.
- Catch issues earlier.
- Works in any patient environment.
